

Occupational Wages

- Of the top five growth occupations in the Green River region (1994-2005), four paid a mean wage of less than \$20,000 in 2001. The entry wages, shown in parentheses, are all less than \$15,000, with the exception of Management Occupations.
 - Cashiers - \$16,316 (\$11,746)
 - Retail Salespersons - \$18,922 (\$12,051)
 - Managers - \$55,486 (\$23,652)
 - Janitors and Cleaners - \$16,940 (\$12,091)
 - Nursing Aides and Orderlies - \$15,538 (\$11,992)
- The mean hourly wage for the 278 occupations listed in Lincoln Trail ranged from \$6.30 for Hosts and Hostesses to \$67.72 for General Internists.
- This section contains the annual and hourly occupational wages for the 2-digit occupational title as well as 6-digit for fields such as computer and mathematical, engineering, healthcare, and production.

Benefits

- In Green River, 86.9% of salaried and 88.4% of hourly full-time workers were offered health insurance. Firms that had 50 or more employees were more likely to offer health insurance than firms that had less than 50 employees.
- Hourly full-time workers in Green River were more likely to be offered health insurance than persons statewide, but salaried full-time workers were less likely to be offered health insurance than persons statewide.
- The employers in Green River paid about two-thirds of the health plan cost for both salaried and hourly full-time employees.
- Employers with 50 or more employees were much more likely to offer retirement plans to their full-time staff than those with fewer than 50 employees (Salaried: 77.9% vs. 49.6%; Hourly: 78.7% vs. 53.9%).
- In general, there is less variation in coverage across industries than across regions. Health insurance coverage for hourly workers is 85.1% statewide, and ranges from 57.6% in agriculture, forestry, and fishing to 97.8% in nondurable manufacturing. The same industries have the lowest and highest health insurance coverage rates for salary workers. For retirement plans, statewide coverage is 68.5% for hourly workers and 70.7% for salary workers. Eating and drinking places have the lowest retirement plan coverage rates and social and community organizations (e.g., schools and universities) have the highest coverage rates for both hourly and salary workers. (*Final Report: Kentucky Labor Supply and Demand Surveys*)

Poverty

- In Kentucky, 15.8% of persons are in poverty, 13.7% of persons in Green River are in poverty. Poverty for families is slightly less than for persons, 12.7% and 10.5% respectively. For most types of family and work experience, poverty rates are lower in Green River than in Kentucky. One notable exception is householders without a spouse present who work full-time.
- Married-couple families are less likely to be in poverty than other families, 6.3% vs. 27.7%, in Northern Kentucky. Approximately one-fifth of families are not comprised of married-couples. Though for other families where the householder worked full-time, the poverty rate is lower, 6.9% for male householders and 9.9% for female householders.
- The first chart on the next page shows the percentage of people below poverty by family type and work experience. It's of no surprise that very few married-couple families with both the householder and spouse working full-time, year-round are in poverty, 0.3% in Kentucky.
- In Northern Kentucky, 12.1% of persons aged 18-64 were in poverty in 1999 (Census 2000). For children, the poverty rate was 18.3% and for those over the age of 65, 12.4% were in poverty.

Unemployment

- “Kentucky’s seasonally adjusted unemployment rate for April was recorded at 5.7 percent, mirroring the same jobless rate from the previous two months, according to the Department for Employment Services, a Cabinet for Workforce Development agency. In April 2002, the state’s seasonally adjusted unemployment rate also was 5.7 percent. The U.S. seasonally adjusted jobless rate April increased to 6 percent from 5.8 percent in March. (CWD press release, June 6, 2003)”
- In Webster County, the preliminary April 2003 unemployment rate rose dramatically from 6.1% in March 2003 to 16.6%.
- In Green River, unemployment was higher during the recession of the early 1990s than the recession beginning in early 2001.

*2002 data has been benchmarked

Underemployment

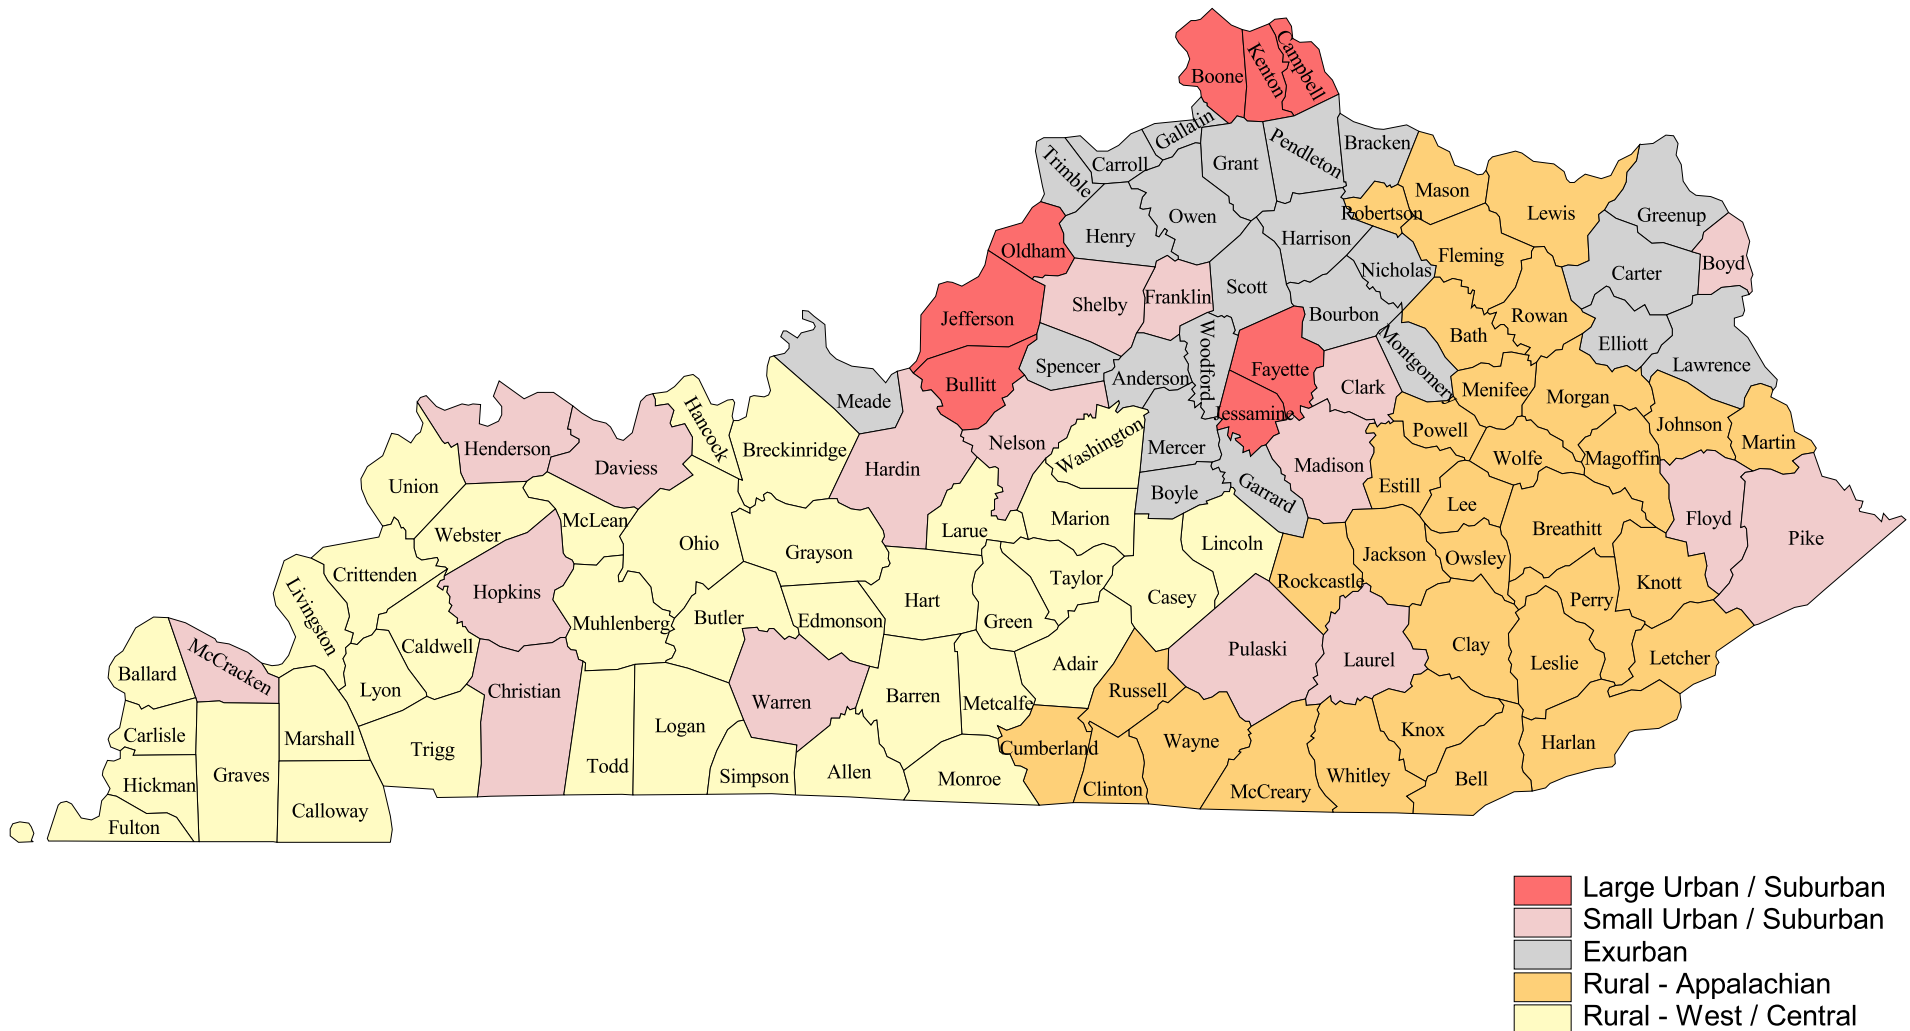

- In 2002, according to the Kentucky Labor Supply and Demand Surveys conducted by the University of Kentucky and the University of Louisville, there were 13,980 underemployed persons in the Green River WIA (see chart below). Eighteen percent of the labor force was underemployed, mostly due to persons seeking a better job match, though twenty-five percent was due to persons seeking full-time work.
- Underemployment was higher in the small urban counties in the Green River WIA than in the rural counties.

	Underemployed Seeking Full Time Work	Underemployed Seeking a Better Job Match	Total Underemployed	% of Labor Force Underemployed	% of Labor Force Under- or Unemployed
Green River	4,627	13,980	18,607	18.4%	24.5%
Daviess	2,753	6,085	8,838	19.3%	25.1%
Hancock	74	527	601	15.0%	20.1%
Henderson	1,106	3,228	4,334	19.3%	24.8%
McLean	98	599	697	15.2%	21.2%
Ohio	226	1,379	1,605	15.9%	21.2%
Union	220	1,230	1,450	18.4%	31.2%
Webster	150	932	1,082	16.6%	21.3%
Kentucky	80,882	273,823	354,705	18.4%	24.1%

- In small urban counties around Kentucky, the underemployed were
 - less likely to be married,
 - more likely to be attending school,
 - less likely to have a post-secondary degree,
 - more likely to be non-white,
 - more likely to be working part-time
 - more likely to be in retail, in education, legal and arts occupations, as well as sales and production occupations
 - less likely to be in management, business and financial occupations and health care occupations than those who were employed but not underemployed.
 - The underemployed were also younger and were paid about \$13.77 an hour less than those who were employed but not underemployed.

- In rural (west and central) counties around Kentucky, the underemployed were
 - less likely to be married,
 - less likely to be attending school,
 - more likely to have some college,
 - less likely to have a baccalaureate degree or an advanced degree,
 - more likely to be non-white,
 - more likely to have a sensory or physical limitation or learning disability,
 - more likely to be in the retail and manufacturing sectors,
 - more likely to be in office and administrative support occupations as well as transportation and materials occupations,
 - less likely to be in management, business, and financial occupations,
 - The underemployed were also slightly younger and were paid \$3.95 an hour less than those who were employed but not underemployed.

Commuting Patterns

- In 2000, 89,945 persons worked in the Green River WIA, 9,499 of whom commuted into the region. More persons commuted out of the Green River WIA than commuted into the WIA; 12,668 residents worked outside the WIA, nearly two-thirds commuted out of Kentucky.
- Daviess, Hancock, and Henderson Counties were net-importers of labor in 2000. Daviess County drew in a large number of workers from McLean and Ohio Counties, while Henderson County imported over 1,000 workers from Union and Webster Counties in Kentucky, as well as Vanderburgh County, Indiana.
- In Kentucky, 30.3% of workers commuted outside their county of residence. In the Green River WIA, this percentage ranged from 13.8% in Daviess County to 61.5% in McLean County.
- The Table below shows the 1990 and 2000 Kentucky commuting patterns into and out of the bordering states. Notice that there was a net loss of workers to the bordering states in 1990, but a net gain in 2000, due in large part to persons from Ohio commuting into the Northern Kentucky WIA.

Kentucky Commuting Patterns by Bordering States
1990 – 2000

State	1990			2000		
	Work in Kentucky	Work Out-of-State	Net Commuting Gain / Loss	Work in Kentucky	Work Out-of-State	Net Commuting Gain / Loss
